

Since 1993, Spill Solutions has been committed to providing our customers with the most reliable, efficient and technologically advanced equipment and services to meet their specific needs. We specialize in both industrial and environmental solutions, representing only the most reputable firms to ensure that the highest standards are consistently met.

Industrial

- Mechanical Seals for all types of pumps
- ANSI Pumps
- DAF Pumps: Dissolved Air Flootation Pumps
- Vertical Turbines
- Submersible Pumps and Lift Stations
- Progressive Cavity Pumps
- Air-Operated Diaphragm Pumps
- Self-Priming Pumps
- Air Compressors
- Compressed Air Dryers. Refrigerated and Desiccant
- Compressed Air Filters
- Filters both liquid and air
- Vacuum Pumps: Liquid Ring, Rotary Vane, PD Blowers & Hook and Claw
- Electric Motors
- Speed Reducers
- Variable Frequency Drives
- Control Panels

Environmental

- Thermal Oxidizers (chlorinated and non)
- Catalytic Oxidizers (chlorinated and non)
- Regenerated CatOx
- Carbon Vessels
- Concentrators
- Blowers
- Liquid Ring Pumps
- Moisture Separators
- Dual-Phase Extraction
- Bio-Reactors
- Heat Exchangers
- CAD/CAM drawings available for each system.
- On-site service work.
- Complete Carbon Changeout Service is available including disposal.

In-House and in-the-Field Service and Repair including but not limited to:

- Vacuum Pumps: Liquid Ring, rotary vane, piston, PD blowers, regenerative blowers & hook and claw
- Pumps: All types of pumps including Split case, vertical turbine, end suction, progressive cavity, DAF Pumps, Air-operated diaphragm, Submersible and more
- Positive Displacement pressure or vacuum blowers
- Air Compressors: Rotary screw and piston; high pressure and oil-free
- System Trouble Shooting and analysis
- Energy Efficiency analysis
- All components found in Remediation Systems
- Bio-Reactors

By coordinating all the necessary components and resources, we are able to ensure that the needs of our clients-no matter how large or small- are being met with satisfaction. From the manufacture of large, customized turn-key systems, to smaller repairs and rebuilding of rotating equipment, we are committed to earning your trust so that we can become the only name you need to know.
